
PROJECT (GROUP) WEB-BASED APPLICATION FOR SUSTAINABLE DEVELOPMENT

Prepared by: Nazmona Mat Ali

Semester 2 2024/2025

INSTRUCTIONS

1. Project Title “Digital Solutions for a Sustainable Future”
 2. To develop a **simple web-based application** that addresses a **real-world issue** related to one or more **United Nations Sustainable Development Goals (SDGs)**. Students will identify a local or global problem, propose a digital solution, and demonstrate how their web application supports sustainable development.
 3. **TWO deliverables for this project i) Report ii) Web-based Application**
-

PROJECT REPORT COMPONENTS

1. Problem Background / Issue (20%)

- Identify a real-world issue (e.g., environmental pollution, food waste, lack of educational resources, mental health).
- Explain why it matters by providing facts, data, or examples.
- Describe the impact of this issue on the community, education, environment, or health.

2. Proposed Solution: Web-Based Application (20%)

- Propose a simple web application to solve or raise awareness about the issue.
 - Explain the features of your application (e.g., information hub, resource sharing, event calendar, feedback form, reporting system).
 - Focus on usability, accessibility, and how it benefits users.
 - The report must include relevant screenshots of the web-based application to demonstrate its features and functionality.
-

PROJECT REPORT COMPONENTS

4. Relevant SDG(s) (10%)
 - Choose at least one SDG that aligns with your project.
 - Justify your choice by explaining on how your application supports this goal.
 5. The report's overall organization, structural coherence, and adherence to formatting conventions (10%)
 - Clear and logical organization of content
 - Well-defined sections and headings
 - Consistent formatting, including font size, spacing, margins, and citation style
 - Visually neat and professionally presented layout
-

Criteria	Marks
Problem Identification and Background	20
Relevance and Creativity of Solution	20
Alignment with SDG(s)	10
Functionality & Design of Web App	30
Report's Organisation	10
Presentation and Teamwork	10
Total	100

RUBRIC FOR ASSESSMENT

DEADLINE

DELIVERABLES	DATE
Web-based Application Presentation	27 June 2025
Project Report	6 July 2025
